

Sofitel Schweizerhof Berlin

- Located directly in the heart of Berlin, only a few paces to Kurfürstendamm, the Zoo and the Kaiser-Wilhelm-memorial church
- Traditional, historic hotel - reopened in 1999 after a complete demolition and rebuilding
- 384 rooms and suites, Xxenia restaurant, 9.00pm bar
- Aqua Spa wellness area including the largest indoor hotel pool in Berlin and modern meeting facilities for up to 1000 people (conference- and ballrooms)
- Product line: Infinity
- Amount of data points: 1.200
- TAC System partner: HOSCH

Functionality:

- complete control of enclosures including heating, cooling and air conditioning
- Intelligent room control including fan coils, heating control, window contacts
- Connection and integration with hotel booking software "Fidelio"
- Connection and integration with the fire prevention system and the fire shutters
- Comfortable E-Max program included for optimisation of peak load

Planning a switch to TAC Andover Continuum system when the extension of the wellness area is completed – in 2007.
